Grants:

In 1998, in order to “pledge its membership to the highest standards of service,” the MADA Board of Directors established an endowment fund - Education and Community Grants Program - to promote education in, and knowledge of, historical Maine arts and decorative arts. It is a means by which the Maine Antiques Dealers, collectively, can return some token of their resources to our larger Maine community, its citizens, and its art and historic institutions. Although it is not our intent to limit the type or scope of projects undertaken through this program, the limited funds available require a certain focus in order for these grants to have the greatest effect for recipients, and by extension, the Maine community at large.

Through the years, this program has benefited various Maine museums, historical societies, and preservation projects in their outreach and curatorial endeavors. We are pleased to announce the most recent MADA Endowment recipients:

Friendship Historical Society
